Forecast for Sunday 03 Jul 2022

Weather: A cloudy start to the day with light rain and drizzle until mid-morning. This will ease leaving a mostly dry afternoon with a few scattered showers but plenty of sunny spells.

Chance of cloud-free hill tops above 800m: 10% chance at first, rising above 80% by the afternoon.

Low Cloud and visibility: Low cloud around 200-300m to start the day with visibility moderate to poor in any rain and drizzle. Cloud bases lifting to above the summits through the afternoon, with excellent visibility expected, reducing slightly in any showers in the early afternoon.

Freezing Level*	2100m	2100m	2100m	2000m	1800m	1800m	1900m	2000m	2000m

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

A poorer start to the day with moderate to poor visibilities and slippery paths due to rain and drizzle during the early hours, feeling cool in the breeze. Conditions improving by late morning, and more widely improving by the afternoon, with plenty of sunny spells so adequate sun protection is recommended.

Forecast for Monday 04 Jul 2022

Weather: A generally dry day with variable amounts of cloud and sunny spells, though a risk of some light rain and drizzle and some lower cloud at time, mainly during the morning.

Maximum wind: Westerly to northwesterly 15 mph gusting 20-25 mph at the summits.

Chance of cloud-free hill tops above 800m: 30% initially, rising to above 80% by late morning.

Low Cloud and visibility: A chance of some scattered cloud around 400m at first, with some mist in the valleys. Cloud base generally above the summits for the remainder of the day.

Temperature: **Valleys:** Plus 6 Celsius, rising to plus 11 Celsius.
At 800m: Plus 10 Celsius, rising to plus 18 Celsius
Freezing level: Above the summits
